HA-47 Tell-R-TV

# HAMILTON

# Hamilton Tell-R-TV Systems

turn our drive-up systems into full-function customer service platforms.

Rich audio and high-high resolution video enhance the communications environment to make remote transactions easier, more accurate and more personal. Tell-R-TV Systems can be included in new drive-up systems or easily retrofit to the entire Hamilton line of drive up customer units.

▲ **HA-1000** – versatile, industry standard, both upsend and downsend

▲ **HA-45** – small footprint of less than 90 sq. inches

▲ **HA-47** – unique rectangular carrier easily handles documents and coin

▲ **HA-33** – heavy duty, commercial deposits, 500 cubic inch capacity

## ▲ **Model IRT-5000**

Hamilton's IRT system allows a teller to serve customers from a remote location as close as just behind the wall, or up to several hundred feet away.

## **Model 5517 Customer Video**

- Low-maintenance stainless steel and ABS construction
- Can be retrofit to existing HA-1000 and HA-45
- Large 10" color LCD display
- High-intensity "Sun Viewable" option

## **Model 5550 Teller Video with 5501 Series Audio Console**

Combined units afford superb audio and visual communication to put customers at ease in remote transaction environments. Up to 12 different drive-up lanes, or remote access locations can be managed from the same console.
